

## MANUAL GUMMED TAPE DISPENSER PULL & TEAR

### Features

The NK891 pull & tear dispenser is built with durable materials and designed for water-activated tapes. It operates entirely manually, with no need for electricity, allowing the user to pull out the desired tape length. During the process, the tape is moistened and cut. It is compatible with various tape widths.

### Suggestion

It is recommended for box sealing, packaging, and logistics applications, mainly in small or mobile workstations.

### Product Application

Fill the water tank. Place the tape and adjust it to the required width. Pull the end, moisten it as it passes through the system, and cut it using the built-in blade. The tape will be ready to use instantly.

### LIFETIME AND STORAGE

It is recommended to implement inventory rotation based on the 'first in, first out' (FIFO) principle.
